

<h1>NYC REMAC</h1>			
Advisory No.	2021 – 02		
Title:	Use of Smart Phone Apps		
Issue Date:	June 16, 2021		
Effective Date:	Immediate		
Supersedes:	n/a	Page:	1 of 1

The Regional Emergency Medical Advisory Committee (REMAC) of New York City is responsible to develop, approve and implement prehospital treatment and transport protocols for use within the five boroughs of the City of New York. The Regional Emergency Medical Advisory Committee (REMAC) of New York City operates under the auspices of Article Thirty of the New York State Public Health Law.

In light of the new NY Statewide EMS Protocol App (MURU), the NYC REMAC has the following statements and recommendations:

1. The REMAC does not endorse any particular application.
2. Smart phone apps may be useful to assist EMTs and Paramedics when providing patient care.
3. Providers are ultimately responsible for being in compliance with the REMAC protocols regardless of the recommendations given by any app.

NYC REMAC is appointing a Technology TAG to review applications and make future recommendations.

Current and Updated Protocols can be accessed at the Regional EMS Council website:

www.nycremsco.org. Owners/operators of Ambulance and ALS First Response Services providing prehospital medical treatment within the five boroughs of the City of New York are responsible to provide copies of the NYC REMAC Prehospital Treatment Protocols to their personnel, and to ensure that Service Medical Directors and EMS personnel are informed of all changes/updates to the NYC REMAC Prehospital Treatment Protocols.
